◆ Terms and Condition

Please be informed of the following:

We do not sell parts that are damaged from accidents.

We usually remove the parts that you want from the damaged vehicles bought directly from the insurance company.

Only good working condition parts are listed.

Please contact us for Air Freight cost for each part. Our sales staff will offer you the total price and issue Proforma Invoice for payment.

We scrap the parts from vehicles and it takes about 2-3 weeks for us to ship your parts after confirming your payment.

If you need some other parts which are not listed below, please feel free to contact us. However, we do not sell ECU (Engine Control Unit) and other engine parts separately.

BE FORWARD Factory (BFF) started buying damaged vehicles (vehicles from accidents) from the largest insurance company in Japan.

We offer customers parts from the damaged vehicles before we dismantle the vehicles.

We dismantle each vehicle for about 2-3 weeks after the vehicle reaches BFF.

After dismantling, we do not stock the dismantled parts. We set deadlines and offer customers to give us quote requests by WhatsApp or email.
